setting up and registration of legal entities, branches and representative offices

AEQUITAS has been providing services to support the establishment of businesses in Kazakhstan since the time of adoption of its first legislative acts on commercial legal entities, the firm's lawyers thus being versed in all statutory and current practice subtleties. The firm provided legal support to launch the first joint ventures, representative offices of foreign banks and subsidiaries of major industrial and energy corporations in Kazakhstan.

When rendering legal support to set up and register legal entities, branches and representative offices, AEQUITAS provides "turnkey" services, from the drafting of

foundation documents to opening of bank accounts and obtainment of corporate seal. The client does not have to be present in Kazakhstan until it comes to the state registration of its legal entity or structural subdivision.

AEQUITAS lawyers help the clients register businesses not only in Almaty and Astana where the firm's offices are located, but in the entire territory of Kazakhstan.
